

2007 BioIndustry Review: Australia & New Zealand

104 pages,
34 graphs and
32 tables

By Dr Kelvin Hopper and Dr Lyndal Thorburn

This BioIndustry Review includes:

- Data, statistics and trends in the Australian and New Zealand bioindustry
- Exclusive information and analysis on Australia's unlisted companies
- Analysis of new Australian and New Zealand biotech startups for 2005/06
- What is the economic impact of biotech?
- Federal and State Government activity and funding in Australia in 2005/06
- What have been the major regulatory changes in Australia & New Zealand in 2006?
- Outlook for 2007

About the Authors:

Dr Kelvin Hopper is Executive Chairman of **Innovation Dynamics**. His experience spans biomedical research to business development, strategy and structuring. Kelvin is director of the BioFusion Capital fund and is a member of the Commercialisation Committee for the Australian National Stem Cell Centre.

Dr Lyndal Thorburn is Managing Director of **Innovation Dynamics**. Her experience spans technology transfer and government strategy. Lyndal is a fellow of the Australian Institute of Company Directors and is on the ACT Health and Medical Research Council.

Innovation Dynamics is a national firm providing business development services to the biotech and other technology-based industries across Australia. Its consultations range from company to industry scale developments. The firm also provides regional development services to government.

Recommendations:

"I have found the Industry Review to be the standard reference book on the Australian and New Zealand biotechnology industries and it is set to remain so; it is a tremendous contribution to our understanding of the dimensions of our industry"
Dr Peter Riddles, CEO ViciBio Pty Ltd

"The BIR is a very useful information resource for us. In this field we deal with many universities, research institutes and start-up companies, and the BIR is helpful when our clients need suggestions about where they might be able to seek commercial support for their research"
Dr Vivien Santer, Griffith Hack

"Innovation Dynamics' BioIndustry Review has allowed us to keep track of the progress and changes occurring within the Australasian industry"
Dr Brian Ward, CEO, NZBio

"One of the key industry references for the Australia & New Zealand biotechnology industry each year"
Dr Peter Isdale, Chief Executive Officer, IBMCom

"The BIR continues to be an excellent source of review and trend analysis within the Australian biomedical industry"
Dr Ashley Bates, Head of Research GlaxoSmithKline
